INTERNSHIP

Web Development Intern – Premier Solutions (1 Month)

- Developed responsive web pages using HTML, CSS and JavaScript.
- Worked with Git/GitHub and collaborated on project tasks.
- Improved debugging and frontend development skills.

PROJECTS

Employee Management System (Java, JDBC, MySQL) – [GitHub Repo](#):

- Designed and developed a full CRUD-based desktop application to manage employee records including add, update, delete and search operations.
- Implemented secure login authentication and used JDBC to connect the application with a MySQL database for persistent storage.
- Applied Object-Oriented Programming principles (encapsulation, inheritance) to structure the codebase for reusability and maintainability.
- Handled exceptions gracefully using try-catch blocks and optimized SQL queries to improve data retrieval performance.
- Followed MVC-like separation of concerns between UI, business logic and database layers.
